Side-Stream

Side-Stream is a two-part referral program that creates additional compensation opportunities for our valued employees.

Refer a new client/division/project that we are not currently working with and receive a percentage of the profit for that particular referral for the first 6 months of work performed.

Odds are you have worked with construction companies that use services similar to ours or, perhaps you worked with a client of another labor provider. Refer a contact and phone number of a decision maker within a company that you have worked with, what project you worked with them on and any other helpful details or information. If your referral leads to work, you can be compensated for the first six months of that opportunity! These referrals can be worth hundreds to tens of thousands of dollars!

Refer new employees and if we hire and work the referred workers for 30 days, receive bonuses ranging from \$50 - \$250 per qualified hire! Have friends or family in the construction industry looking for work? Refer them and get paid! Our family of companies is constantly searching for qualified, dependable employees. Simply refer their name and contact information to us. Let them know we may be reaching out about job opportunities and we will take it from there!

(terms and conditions may apply. Bonuses and other compensation in relation to Side-Stream are based upon profitability of the referral. At present, there are no caps on compensation an employee may receive for referral opportunities)

LIFE INSURANCE

Plan Design for: Innerstaff

401K

Multiple Employer Plans are a special type of 401(k) plan that allow businesses to pool their purchasing power together to access better benefits, service, and rates with less in-house administrative overhead. Since you participate in our PEO, you are able to take advantage of these great features

Multiple employer plans (MEPs) provide HUGE advantages to participating employers. Rather than sponsor your own 401(k) plan, you can become a participating employer of a much larger plan. Our size allows us to negotiate better prices and provide a broader array of services from expert retirement providers. Since you are not the plan sponsor, you are also able to reduce the administrative headaches and transfer much of the liability that comes with managing a retirement plan. But don't worry, you can still design your 401(k) plan to meet your company's specific objectives.

MORE SERVICES

LESS WORK

LESS LIABILITY

Ranked #1 in Challenging Inaccurate Credit Data

HOW IT WORKS

Credit Saint's Programs work in 45 day cycles. At the end of each cycle you will receive 3 credit reports at your home. These reports are your results, they will show which questionable negative items have been removed from your credit so far. You simply fax, email, or mail these reports to us, and then check for your progress report update.

Credit Saint performs a .11 analysis of your credit history, challenges the damage you disagree with, and sets you up with a plan to build positive credit.

The credit bureaus investigate the challenges received and press your creditors to defend the items they placed in your history that you disagree with. During this period, you will be implementing our plan for building the necessary credit to boost your credit score.

The credit bureaus release new credit reports to show the changes made. Your account page at CreditSaint.com is updated with a progress report showing the overall changes. New challenges are released.

Private Dashboard

Talk to us as much or as little as you like. Your online account page will bring you up to speed on what's going on with full analysis and progress reports.

Help Understanding Your Credit Score

Credit damage is only half of what influences your credit report. You need to build a balanced report by continuously generating new months of positive history. We will show you how.

Easy as 1-2-3

1

We will create a credit monitoring account for you with [CreditSquad.com](#)

2

We'll go over the specific details of your credit history with you and identify what items in your history you disagree with that are damaging your credit.

3

We will also analyze your positive credit and explain how to optimize your report using techniques for paying bills and opening or closing credit
